WHEREAS, the Association has for years brought classroom temperature issues to the attention of the District, and

WHEREAS, the Association and its members have had to endure wide ranges of temperature fluctuation in their classrooms, and

WHEREAS, excessive heat or cold has a direct impact on the health and welfare of the students and the staff, and

WHEREAS, due to the excessive heat there is a consistent waste of taxpayer money,

WHEREAS, the Association and its members have been consistently promised that the temperature issues would be fixed and said promises have gone unfulfilled, and

WHEREAS, the Association cannot accept the notion that “nothing can be done” due to the age of the buildings and heating apparatus,

NOW, THEREFORE, be it resolved that the Connetquot Teachers Association calls upon the Connetquot Board of Education to investigate this matter and assist in developing a plan that will result in classroom temperatures that are consistent with NYS regulations, that do not adversely impact student and staff health and that lead to a more conducive learning environment for students.
